From October 2008 to May 2009 I

learnt English for Básico I Students and
my teacher was Maria Martínez Candela.

This is where I studied at school.

In my class there are four
windows, and our desk, 32
chairs, six parkers, three
eraser and our teacher, she
is a woman.

These are my classmates.

My classmates there are 25
persons, ~~they are~~
all are kinds and very
nice. There aren't old, they
are very young people.

I am most proud of my
progress in vocabulary

I look forward to learning

at home.

I study in my living room
on the table, I never study
watching TV.

My favourite memory of
this year is the Grammatical
